

Revision Students will be following the exam timetable. Revision sessions will depend on the study leave timetable. Revision lessons will be arranged as appropriate in line with this timetable.

# Geography Learning Journey

## Pre-Release

**Booklet** Released 12 weeks prior to the exam. Students will learn how to explain the topic and figures in the booklet.

Water and energy security.

## Resource Management and Energy

To know the importance and impacts of Food,

**The Changing Economic World** Economic development and quality of life.

**Urban Issues and Challenges** Urban change and sustainability.

## Geographical Fieldwork Enquiry

Selecting a suitable question for geographical enquiry. Selecting, measuring and recording data appropriate to the chosen enquiry. Selecting appropriate ways of processing and presenting fieldwork data.

River landscapes and landforms.

**YEAR 11**

The social, environmental and cultural change.

Social, economic and environmental opportunities and challenges. Comparing two economies. Nigeria vs. the UK

Different management strategies to protect homes from the effects of flooding.

Different management strategies to protect the coast.

**The Living World** To instigate a cold environment case study.

## Physical Processes (Coasts and Rivers)

Coastal Landscapes and landforms.

To know the opportunities and challenges of cold desert environments

Tropical rainforests need to be managed to be sustainable.

Deforestation has economic and environmental impacts.

**The Living World** Ecosystems and the different Biomes.

**10**

**Physical Processes** Erosion, weathering, Transportation and deposition processes.

To know the course of the river.

**The Challenge of Natural Hazards** Earthquakes and volcanoes.

Weather and climate.

Their effect on people and the environment.

Managing climate change.

**The Living World** Ecosystems and the different Biomes.

**The Challenge of Natural Hazards** Tropical storms, hurricanes, cyclones and typhoons.

**Food and Water Management** Description of the distribution of food and water consumption globally.

Risks and risk management.

Evaluation of the use of water transfer schemes in the UK.

how/why they have changed. Rural/urban migration.

To know the opportunities and challenges for development in hot deserts.

Explanation of how plants and animals have adapted to the climate.

**Hot Desert Environments** Description of what a hot desert is

Explanation of factors that cause food and water insecurity.

Extreme poverty and aid.

**Economic Development** LICs and HICs.

Measuring country development.

**9**

Explanation of the impacts of different types of pollution.

**Pollution and strategies to reduce it** Description of different types of pollution.

To know ways we can help to reduce different types of pollution.

**Study of the physical and human aspects of a region – Middle East.** The main physical features in the Middle East.

Development of Russia.

**Resource Management** Identify sources of renewable and non-renewable energy.

Responses to different types of extreme weather.

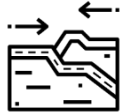

Challenges and opportunities for development in the Middle East.

Comparison of the advantages and disadvantages of each source of energy.

**Study of the physical and human aspects of a region – Africa** Main physical features of Africa.

Development projects in Africa.

Benefits and dangers of living in a danger zone.

Effects of different types of extreme weather.

**YEAR 8**

**Living World – Ecosystems** Ecosystems and the different biomes around the world.

Management of ecosystems including the impact of humans  
Protection of ecosystems.

The distribution of people in Africa.

**Tectonic Hazards** Earthquakes and volcanoes.

Protection and prediction methods.

**Extreme Weather** Tropical storms, tornadoes, heat waves and forest fires.

**Tourism** Define tourism.

Positive and negative characteristics of living in a city.

How people are connected throughout the world.

**What is Geography?**

Different tourist locations both in the UK and international.

Ways to improve conditions in Shanty Towns.

**Settlements** Features of rural and urban areas to include differences.

OS map, grid references and compass directions.

**YEAR 7**

welcome

' Geography is the subject which holds the key to our future. ' MICHAEL PALIN
